FOLDING & GLUING MACHINE FOR SPECIALTY CORRUGATED BOX

Specifications

Max. Sheet Size : 1700 x 1300 mm (W x L)	Overall Height : 2400 mm
Min. Sheet Size : 400 x 120 mm (W x L)	Overall Width : 3200 mm
Max. Belt Speed : 260 m/min	Main Motor : 55 KW
Overall Length : 22400 mm	Compress Motor : 5.5 KW
	Overall Weight : 25 tons

Servo drive suction feeding section with variable feeding speed to ensure positive and smooth feeding

Final folding transportation belt with left and right side speed adjustable individually for correcting box blank for straight travelling

Creasing roller knife at the entrance of final folding section to firm the creases in good shape for precise final fold

Side alignment section of one hand adjustment operation ensures quick set up and precise box travelling

Stopper / Presser at the entrance of compression belt to prevent fish tailing from happening

Stopper at trombone section to align the box lead edge before feeding into compression section
