

ETERNA **V.K.**

***Automatic Diecutting and
Creasing Machine with Stripping Station***

Model PE1050S

**Heavy Duty Mechanical Design
Precise Tolerance and Accurate Registration
Latest Technology and State-of-the-Art Engineering
Very Affordable Price with European and American Quality and Safety Standards**

ETERNA**VK**

Model PE1050, PE1050S (with stripping)

Automatic Diecutting and Creasing Machine

Troqueladora Y Marcadora Automatica

Outstanding Features

Uniquely designed non-stop feeder with 4 pick-up and 4 forwarding suckers allows easy handling of a big variety of stocks, from thin paper to E and B flute corrugated board.

Top quality electrical components with latest technology in micro-processors, to ensure trouble-free running and to meet CE standard. The machine also comes equipped with the most up-to-date safety system for safe operation.

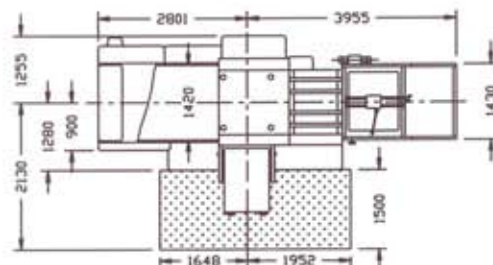

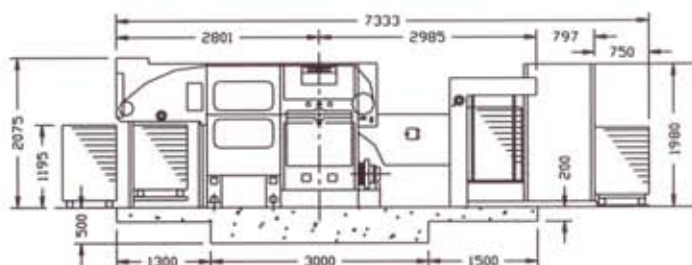

A heavy-duty, triple action stripping station with capability of stripping a variety of die cut works at high production speed. This delivers a completely stripped product, except for the gripper edge, into the non-stop delivery station. A tab inserter tabs the pile at a quantity pre-set from the counter (optional).

Specifications

Max. sheet size	Tamano maximo del papel	1050 X 750 mm (41-3/8" X 30")
Min. sheet size	Tamano minimo del papel	450 X 370 mm (18" X 15")
Max. diecutting size	Tamano maximo de corte	1040 X 730 mm (41" X 29")
Max. impression strength	Maximo fuerza de impresion	250 tons / toneladas
Max. speed	Velocidad maxima	5,500 r.p.h.
Height of feeder stack	Altura de apilado del alimentador	1100 mm (43-3/8")
Height of delivery stack	Altura de apilado del recibidor	850 mm (33-3/8")
Motor	Motor	11 kw (15HP)
Capacity of all motors	Capacidad de todos los motores	20 kw (27HP)
Net weight of machine	Peso neto de la maquina	18 tons/toneladas
Dimensions	Dimensiones	6000 X 2860 X 2080 mm
